MARCH INTERNATIONAL – THE FAMILY BUSINESSES FUND – CL R GBP HEDGED

A share class of THE FAMILY BUSINESSES FUND

A Sub-Fund of the MARCH INTERNATIONAL

ISIN code: (A) LU0982156977

FundRock Management Company S.A. as its Management Company

Objectives and investment Policy

Investment Objective: The Investment objective of the Sub-Fund is to seek long term capital appreciation by investing mainly in listed equity securities of companies that were initially set up by one or more families, in which one or more families still own a significant stake (i.e. at least 15%) or in which the management of one or more families are involved.

The Sub-Fund may invest in equities, or in American Depositary Receipts ("ADRs") and Global Depositary Receipts ("GDRs") and will focus on manufacturing, trading and services companies whose equities have been admitted to trading on a stock market all over the world. The Sub-Fund may hold cash on an ancillary basis. The Sub-Fund will not invest more than 10% of its net assets in undertakings for collective investment. The Sub-Fund may use financial derivative instruments for hedging and/or for other purposes, including options, forwards, futures and/or swaps on Transferable Securities

and/or other eligible assets as described in the prospectus. The Sub-Fund will not use efficient portfolio management techniques or Total Return Swaps (TRS).

The Sub-Fund is actively managed and the investment objectives and strategy do not refer to a benchmark.

The Sub-Fund is suitable for investors with a long-term investment horizon, as losses may occur due to market fluctuations.

CLASS R GBP HEDGED does not pay a dividend. Any income arising is retained in the Fund and reflected in the value of the share class.

Subscriptions for Shares are accepted on each Valuation Day. Applications for subscriptions must be received by the Administrative Agent not later than 4.00 p.m. (Luxembourg time) on the Valuation Day. Applications received after that time will be processed on the next Valuation Day.

Risk and reward profile

The indicator is based on the available history of the returns of the Sub-Fund completed with the history of the returns of a representative portfolio. The risk category shown is not guaranteed and may change over the time. A risk indicator of "1" does not mean that the investment is "risk free". Historical data used to calculate this indicator may not be a reliable indication of the future risk profile.

The Fund is placed in this category as most of its assets will be permanently exposed to international equities.

The lowest category does not mean a risk free investment.

For more information on risks, please refer to the prospectus of the Sub-Fund.

The Sub-Fund is rated 5 due to the nature of its investments which include the risks listed below.

These factors may impact the value of the Sub-Fund's investments or expose the Sub-Fund to losses.

- **Liquidity Risk:** The markets for some securities and instruments may have limited liquidity. This limited liquidity could be a disadvantage to the Sub-Fund, both in the realisation of the prices which are quoted and in the execution of orders at desired prices.

- **Counterparty Risk:** The Sub-Fund may suffer losses if a counterparty defaults and is unable to meet its contractual obligations.
- **Currency Risk:** Changes in exchange rates between currencies or the conversion from one currency to another may cause the value of investments in the Sub-Fund to diminish or increase.
- **Equity Risk:** The Sub-Fund may invest in equity whose market price may decline due to specific changes in the company perspectives or market sell-off. Should this happen the value of investments in the Sub-Fund may fall.
- **Hedging Risk:** The cost and benefits of the currency hedging transactions includes the costs of hedging and the allocation of any gains and losses resulting from the hedging transactions.
- **Risk linked to the use of derivative instruments:** The Sub-Fund uses derivative instruments, which means financial instruments whose value depends on those of an underlying asset. Therefore fluctuations in the price of an underlying asset, even if minor, could lead to significant variations in the price of the corresponding derivative instrument.
- **Risks associated with Depositary Receipts:** ADRs and GDRs do not always perform in line with the underlying security and there is no guarantee that a similar outcome will be achieved to that if it were possible to hold the securities directly. In the event of the suspension or closure of a market(s) on which the underlying securities are traded, there is a risk that the value of the ADR/GDR will not closely reflect the value of the relevant underlying securities. Additionally, there may be some circumstances where the Investment Manager cannot, or it is not appropriate to, invest in an ADR or GDR, or the characteristics of the ADR or GDR do not exactly reflect the underlying security
