# Institutional SICAV

## WHY INVEST IN OUR INSTITUTIONAL SICAV

- Different risk profiles, from the most conservative (Torrenova de Inversiones) to the most decisive (Lluc Valores):

Torrenova Inversiones
Risk Profile

- An emblem, accumulating more than 20 years of success..
- They are governed according to the following criteria:
  - Fundamental analysis and value criteria in selection of companies.
  - No benchmark index is followed.
  - Currency risk is eliminated.
  - Dynamic asset allocation management.

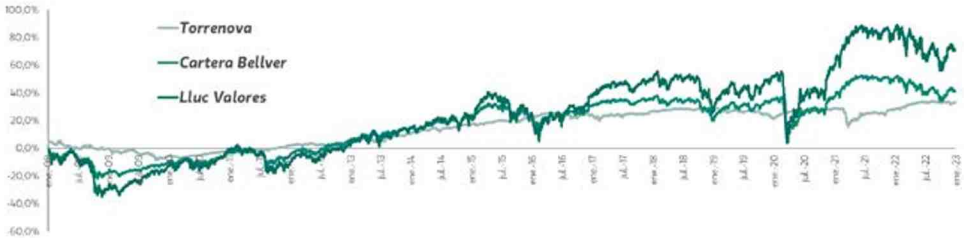
## HOW WE DO IT IN BANCA MARCH

- Exponent of co-investment with our shareholders.
- The basic pillars of our SICAVs are value generation and long-term returns.
- Diversity of vehicles (Spanish SICAV, March International Lux).
- Inclusion of ESG criteria in the analysis and valuation of companies.

## WHY DO IT NOW

- Active management. Diversification in fixed income/money markets and equities.
- Flexibility in decisión making to benefit from different relevant investment opportunities in the médium term as well as higher expected volatility.
- Economic growth and corporate earnings 23e with downside risk.

## HOW IT HAS PERFORMED



Source: March A.M.

Any investment may involve certain risks, as a result of which the Acquisition value and returns may fluctuate, both upwards and downwards, and the amount initially invested may not be recovered. Past performance is not a reliable indicator of future results. Historical returns are calculated in EUR. Returns shown include fees and expenses.

## José Luis Palma
### Head of Institutional SICAV

José Luis Palma is graduated in Business Administration from CUNEF, Master in Financial Markets from IEB and holds the Chartered Financial Analyst, CFA certification, including his certificate in ESG investing.

With more than 20 years of experience in the sector, he began his career as a financial auditor at KPMG. He then worked in the markets department of BBVA Switzerland, before becoming a sell-side analyst of financial institutions at Caja Madrid Bolsa.

For 9 years he was part of the management team at Belgravia Capital from 2011 to 2015, as buy-side analyst of European equities, and from 2015 to 2020 as co-manager of collective investment institutions.

Since 2020, José Luis Palma has been managing the portfolios of Torrenova, Bellver and Lluc and is responsible for the Institutional SICAV team at March A.M.

## Carlos Ruiz de Antequera
### CIO and co-manager of Institutional SICAV

Carlos Ruiz holds a B.S. in Business Administration, a MBA in Business Administration from St. Louis University, a Master's degree in Quantitative Finance from AFI School of Finance, a Chartered Financial Analyst, is certified by Chartered Financial Analyst, CFA certification, as well as a certificate in ESG investing, CFA.

With more than 25 years of experience in the asset management and Private Banking industry, having spent the last two decades at Santander A.M. and Santander Private Banking International (Spain and Miami), where he has held roles in fund management, financial advisory, head of discretionary management, and in his last stage CIO of International Private Banking at Banco Santander.

Since 2021, Carlos is Chief Investment Officer at March A.M., where he has brought his extensive experience, mainly directed to high net worth clients, in the management of Equity solutions (globally and specialized in the technology sector, Europe, Japan and USA), Fixed Income (specialized in LatAm credit) and Hedge Funds.

## Marc Halioua
### Institutional's SICAV Analyst

Marc Halioua holds a degree in Business Administration and Law from the Instituto de Empresa (IE University) and a Master in Finance from the Instituto de Estudios Bursátiles.

He began his professional career in the investment banking department of Arcano Partners as an M&A analyst.

He joined March A.M. in February 2020 as analyst in the Institutional SICAV team.

## Product range

MARCH A.M.
BancaMarch

| | Name | | Investment Strategy | SFDR |
|---|---|---|---|---|
| INSTITUTIONAL SICAV | Torrenova de Inversiones & March Intl. Torrenova Lux * | Mixed F.I. | Conservative Profile. The most conservative strategy of the Institutional SICAVs and example of co-investment with the Banca March Group. Mixed global strategy. Neutral position 80% Fixed Income / 20% Equities, seeking long-term capital appreciation. | 8 / 6 |
| | Cartera Bellver & March Intl. Bellver Lux * | Mixed Balanced | Moderate Profile. A global mixed strategy, where typically 50% of the portfolio seeks to outperform the major global equity markets with lower volatility, and the other 50% of the portfolio seeks to outperform Euribor | 8 / 6 |
| | Lluc Valores & March Intl. Lluc Lux * | Mixed E. | Determined Profile. Seeks to outperform major global stock markets with lower risk (volatility). Stock market exposure of around 80% (neutral situation), but without limitation. No currency risk in equity investments. | 8 / 6 |
| THEMATIC FUNDS | March Intl. Vini Catena * | Global E. | Invests in listed companies related to the global wine value chain. It does not invest in physical wine. We select quality companies that have attractive valuations, good fundamentals and differentiate themselves from their competitors. | 6 |
| | March Intl. The Family Businesses Fund * | Global E. | Invest in globally listed family companies. The intrinsic value of family companies (long-term vision, motivation, low debt, etc.) makes them perform better in times of economic crisis. | 6 |
| | March Intl. Mediterranean Fund * | Global E. | Invests in listed global ocean and water-related companies. We select quality companies that have attractive valuations, good fundamentals and differentiate themselves from their competitors. | 8 |
| | March Intl. March Climate Solutions * | Global E. | It invests in companies and sectors that provide solutions to the challenges posed by global climate change, global warming or that are involved in the decarbonisation of the economy in line with some of the sustainable development goals set by the United Nations for 2030. | 8 |
| | March Intl March Green Transition Bond * | Global F.I. | Global diversified multi-sector fixed income fund that contributes to financing solutions and issuers committed to decarbonisation and the environment through investment in a master fund. The strategy combines 3 approaches that address the transition to a greener planet through: 1) green bonds 2) SBTi (Science Based Target initiative) companies and 3) emerging market government bonds. | 8 |
| | March Intl. Iberia * | Iberian E. | Invests in Spanish and Portuguese companies. We select quality companies that have attractive valuations, good fundamentals and stand out from their competitors. It does not follow any benchmark index. | 8 |
| ALT | March Intl. March Alternative Strategies * | Alternative FoF. | Fund of funds that invests in alternative strategies with the objective of generating a stable return over the long term around Euribor + 1.5% with a volatility of 3% and limiting drawdowns to 3% (in monthly terms). It invests in different strategies (Long/Short Equity, Relative Value, Global Macro or Event Driven). | 6 |
| EQUITY | March Global | Global E. | Invest in Value style companies around the world. Objective: invest in companies with long-term appreciation potential. Quality companies, attractive valuations, with good fundamentals and that differentiate themselves from their competitors. | 8 |
| | March Europa | Global E. | Invest in European companies with Value style. We invest in companies with long-term growth potential. We select companies with quality, attractive valuations, good fundamentals and that differentiate themselves from their competitors. | 8 |
| | Best Ideas | Mixed Balanced | Multi-asset mixed fund that diversifies its portfolio globally through March A.M.'s best investment ideas. | 6 |
| PROFILED | March Cartera Defensiva | Fund of Funds | Objective: maximum volatility (non-guaranteed) below 3% per annum. Portfolio diversified between fixed income, absolute return and equity funds (maximum equity exposure: 15%). Its investment decision-making process takes ESG criteria into account. | 8 |
| | March Cartera Conservadora | Fund of Funds | Objective: maximum volatility (non-guaranteed) below 5% per annum. Portfolio diversified between fixed income, absolute return and equity funds (maximum equity exposure: 30%). Its investment decision-making process takes ESG criteria into account. | 8 |
| | March Cartera Moderada | Fund of Funds | Objective: maximum volatility (non-guaranteed) of less than 10% per annum. Portfolio diversified between fixed income, absolute return and equity funds (maximum equity exposure: 60%). Its investment decision-making process takes ESG criteria into account. | 8 |
| | March Cartera Decidida | Fund of Funds | Objective: maximum volatility (non-guaranteed) below 25% per annum. Portfolio diversified between fixed income, absolute return and equity funds (equity exposure of around 70%). Its investment decision-making process takes ESG criteria into account. | 8 |
