WHAT IS THIS PRODUCT?

Type : This product is a fund of MARCH INTERNATIONAL, SICAV, an investment company with variable share capital (SICAV) with multiple funds and governed by the Luxembourg Law of December 17, 2010 on Undertakings for Collective Investment.

Term : This sub-fund has no maturity date. However, the board of directors may decide to close the sub-fund under certain circumstances.

Objectives : The Sub-Fund aims to seek long term capital appreciation by investing mainly in listed equity securities of companies that were initially set up by one or more families, in which one or more families still own a significant stake (i.e. at least 15%) or in which the management of one or more families are involved. The Sub-Fund may invest in equities, and occasionally in American Depositary Receipts ("ADRs") and Global Depositary Receipts ("GDRs") which may not embed derivatives. The Sub-Fund may also hold ancillary liquid assets (i.e. bank deposits at sight, such as cash held in current accounts with a bank accessible at any time) up to 20% of its net assets for treasury purposes. The Sub-Fund will not invest more than 10% of its net assets in undertakings for collective investment. The Sub-Fund may use financial derivative instruments for hedging and/or for other purposes, including options, forwards, futures and/or swaps on Transferable Securities and/or other eligible assets as described in the prospectus. The Sub-Fund will not use efficient portfolio management techniques or Total Return Swaps (TRS). The Sub-Fund is actively managed and the investment objectives and strategy do not refer to a benchmark.

The Sub-Fund launched on 23/11/2011. The Share Class launched on 13/09/2012.

The currency of the Sub-Fund is EUR, the currency of this product is USD.

Distribution Policy: Returns and gains are not distributed but are reinvested in the Fund.

Intended retail investor : The Sub-Fund is suitable for any investor type (institutional and retail investors) who is interested in the growth potential of companies that were initially set up by one or more families or in which one or more families still own a significant stake and wish to participate in specialised equity markets. The Sub-Fund may be most appropriate for investors with an investment horizon of at least 5 years, as losses may occur due to market fluctuations. This Sub-Fund may be suitable for portfolio diversification purposes as it provides exposure to a particular segment of the equity market as specified in the investment policy of the Sub-Fund.

Depository: CACEIS BANK, Luxembourg Branch

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk indicator

 The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.
You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Investors shall note that besides the risks included in the risk indicator, other risks such as liquidity risk, counterparty risk, currency risk, equity risk, risks associated with depository receipts, risk linked to use of derivative instruments and hedging risk may affect the fund performance. Please refer to the Prospectus for further details.

This product does not include any protection from future market performance so you could lose some or all of your investment. If not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product/proxy over the last 10 years. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

Favourable scenario: This type of scenario occurred for an investment/benchmark or proxy between June 2016 and June 2021

The figures shown include all the costs of the product itself but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

WHAT HAPPENS IF FUNDROCK MANAGEMENT COMPANY S.A. IS UNABLE TO PAY OUT ?

The Management Company is responsible for administration and management of the Sub-Fund, and does not typically hold assets of the Sub-Fund (assets that can be held by a depository are, in line with applicable regulations, held with a depository in its custody network). The Management Company, as the PRIIPs manufacturer has no obligation to pay out since the product design does not contemplate any such payment being made. However, investors may suffer loss if the Sub-Fund or the depository is unable to pay out. There is no compensation or guarantee scheme in place which may offset, all or any, of this loss.

WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Cost over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return).
- For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- 10,000 USD is invested.

| Example Investment: 10,000 USD | If you exit after 1 year | If you exit after 5 years (RHP) |
|--------------------------------|--------------------------|---------------------------------|
| Total costs | 234 USD | 1,589 USD |
| Annual cost impact(*) | 2.34% | 2.46% |

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 7.80% before costs and 5.34% after costs.

Composition of costs

| One-off costs upon entry or exit | | If you exit after 1 year |
|---|---|--------------------------|
| Entry costs | We do not charge an entry fee for this product. | 0 USD |
| Exit costs | We do not charge an exit fee for this product. | 0 USD |
| Ongoing costs taken each year | | |
| Management fees and other administrative or operating costs | 2.27% of the value of your investment per year. This is an estimate based on actual costs over the last year. | 232 USD |
| Transaction costs | 0.01% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell. | 1 USD |
| Incidental costs taken under specific conditions | | |
| Performance fees and carried interest | There is no performance fee or carried interest for this product. | 0 USD |

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MY MONEY OUT EARLY?

The recommended minimum holding period: 5 years.

You should be prepared to stay invested for 5 years. However, you can redeem your investment without penalty at any time during this time, or hold the investment longer. Redemptions are possible on each full bank business day in Luxembourg. In exceptional circumstances, your right to request the redemption of your investment may be limited or suspended.

HOW CAN I COMPLAIN?

Complaints about the behaviour of the person who advised you on the product or sold it to you, should be addressed directly to that person. Complaints about the product or the behaviour of the manufacturer of this product should be directed to the following address:

Postal address: FundRock Management Company S.A., Airport Center Building 5, Heienhaff, L-1736 Senningerberg, Grand Duchy of Luxembourg.

E-mail: FRMC_qualitycare@fundrock.com

In all cases, the complainant must clearly indicate his/her contact details (name, address, phone number or email address) and provide a brief explanation of the claim.

OTHER RELEVANT INFORMATION

Conversion right: You may apply for shares in this Sub-Fund to be converted into shares of different class or other Sub-Funds of March International SICAV. For more information on how to convert your shares to shares of other Sub-Funds, please refer to the "Conversions" section in the Prospectus.

Segregation: Investors should note that there is no segregation of liabilities between the individual Classes within a Sub-Fund. Hence, there is a risk that under certain circumstances, hedging transactions in relation to a Hedged Class could result in liabilities affecting the Net Asset Value of the other Classes of the same Sub-Fund. In such case assets attributable to other Classes of such Sub-Fund may be used to cover the liabilities incurred by the Hedged Class. An up-to-date list of the Classes with a contagion risk is available upon request at the registered office of the Company/the Management Company.

Additional information: Copies of the Prospectus, the latest annual and semi-annual report in English as well as other information (including the latest share prices) are available free of charge upon request at the registered office of the Company or on <https://www.march-am.com>.

Past performance and previous performance scenarios: The cost, performance and risk calculations included in this key information document follow the methodology prescribed by EU rules. Note that the performance scenarios calculated above are derived exclusively from the past performance of the Company's share price and that past performance is not a guide to future returns. Therefore, your investment may be at risk and you may not get back the returns illustrated. Investors should not base their investment decisions solely upon the scenarios shown. Information about past performance (when available) and performance scenario calculations can be found on <https://www.march-am.com>

Any past performance data presented will be for up to 10 calendar years from the date of the launch of a share class. No performance data will be presented for a share class that does not yet have performance data for one complete calendar year as there would be insufficient data to provide a useful indication of past performance to retail investors.
