### Risk and reward profile

The indicator is based on the available history of the returns of the Sub-Fund completed with the history of the returns of a representative portfolio. The risk category shown is not guaranteed and may change over the time. A risk indicator of "1" does not mean that the investment is "risk free". Historical data used to calculate this indicator may not be a reliable indication of the future risk profile.

Diversified exposure to equity markets, interest rate risk, credit risk and currency risk explains this Sub-Fund's classification in this category.

For more information on risks, please refer to the prospectus of the Sub-Fund.

The Sub-Fund is rated 4 due to the nature of its investments which include the risks listed below. These factors may impact the value of the Sub-Fund's investments or expose the Sub-Fund to losses.

- Liquidity Risk - The markets for some securities and instruments may have limited liquidity. This limited liquidity could be a disadvantage to the Sub-Fund, both in the realisation of the prices which are quoted and in the execution of orders of orders at desired prices.
- Counterparty Risk - The Sub-Fund may suffer losses if a counterparty defaults and is unable to meet its contractual obligations.
- Currency Risk - Changes in exchange rates between currencies or the conversion from one currency to another may cause the value of investments in the Sub- Fund to diminish or increase.
