

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

MARCH INTERNATIONAL – MEDITERRANEAN FUND – CL P EUR

A share class of MEDITERRANEAN FUND

A Sub-Fund of the MARCH INTERNATIONAL

ISIN code: (A) LU2039994293

FundRock Management Company S.A. as its Management Company

Objectives and investment Policy

The aim of the Sub-Fund is to provide long-term capital appreciation through selected investments in listed equity securities of companies involved in the design, manufacture or sale of products and services in connection with the seas and water management sectors. The strategy has a supportive environment that is backed by global mega-trends such as population growth, environmental constraints, supportive regulation, and global wealth creation. The Sub-Fund will be unrestricted in its choice of companies either by size, industry or geography. The Sub-Fund is suitable for investors with a medium - to long term investment horizon, who wish to invest in a diversified portfolio and to achieve a reasonable investment return, while being aware of the associated price fluctuations. The Sub-Fund will mainly invest in equities, or in American Depositary Receipts ("ADRs") and Global Depositary Receipts ("GDRs"). Notwithstanding the foregoing, the Sub-Fund may also invest on an ancillary basis in fixed-income securities (bonds) and bank deposits in order to limit equity-risk, including bonds, notes, similar fixed-income, floating-rate securities, convertible bonds, convertible notes, warrant bonds and bank deposits in order to limit equity-risk. The Sub-Fund may hold cash on an ancillary basis. The Sub-Fund may not borrow for investment purposes.

The Sub-Fund will not invest more than 10% of its net assets in undertakings for collective investment. The Sub-Fund may use financial derivative instruments for hedging and/or for other purposes, including options, forwards, futures and/or swaps on Transferable Securities and/or other eligible assets as described in the prospectus. The Sub-Fund will not use efficient portfolio management techniques or Total Return Swaps (TRS).

The Sub-Fund is actively managed and the investment objectives and strategy does not refer to a benchmark.

The Sub-Fund is suitable for investors who can afford, in principle, to set aside their capital for a period of at least 5-6 years.

CLASS P EUR does not pay a dividend. Any income arising is retained in the Fund and reflected in the value of the share class.

Subscriptions for Shares are accepted on each Valuation Day. Applications for subscriptions must be received by the Administrative Agent not later than 4.00 p.m (Luxembourg time) on the Valuation Day. Applications received after that time will be processed on the next Valuation Day.

Risk and reward profile

The indicator is based on the available history of the returns of the Sub-Fund completed with the history of the returns of a representative portfolio. The risk category shown is not guaranteed and may change over the time. A risk indicator of "1" does not mean that the investment is "risk free". Historical data used to calculate this indicator may not be a reliable indication of the future risk profile.

The Fund is placed in this category as most of its assets will be permanently exposed to international equities.

Diversified exposure to equity markets, interest rate risk, credit risk and currency risk explains this Sub-Fund's classification in this category.

The lowest category does not mean a risk free investment.

For more information on risks, please refer to the prospectus of the Sub-Fund.

The Sub-Fund is rated 5 due to the nature of its investments which include the risks listed below.

These factors may impact the value of the Sub-Fund's investments or expose the Sub-Fund to losses.

- **Liquidity Risk:** The markets for some securities and instruments may have limited liquidity. This limited liquidity could be a disadvantage to the Sub-Fund, both in the realisation of the prices which are quoted and in the execution of orders of orders at desired prices.
- **Counterparty Risk:** The Sub-Fund may suffer losses if a counterparty defaults and is unable to meet its contractual obligations.

- **Currency Risk:** Changes in exchange rates between currencies or the conversion from one currency to another may cause the value of investments in the Sub-Fund to diminish or increase.
- **Credit and Fixed Interest Securities:** Fixed interest securities are particularly affected by trends in interest rates and inflation. If interest rates go up, the value of capital may fall, and vice versa. Inflation will also decrease the real value of capital. The value of a fixed interest security will fall in the event of the default or reduced credit rating of the issuer.
- **Equity Risk:** The Sub-Fund may invest in equity whose market price may decline due to specific changes in the company perspectives or market sell-off. Should this happen the value of investments in the Sub-Fund may fall.
- **Hedging Risk:** The cost and benefits of the currency hedging transactions includes the costs of hedging and the allocation of any gains and losses resulting from the hedging transactions.
- **Risk linked to the use of derivative instruments:** The Sub-Fund uses derivative instruments, which means financial instruments whose value depends on those of an underlying asset. Therefore fluctuations in the price of an underlying asset, even if minor, could lead to significant variations in the price of the corresponding derivative instrument.
- **Risks associated with Depositary Receipts:** ADRs and GDRs do not always perform in line with the underlying security and there is no guarantee that a similar outcome will be achieved to that if it were possible to hold the securities directly. In the event of the suspension or closure of a market(s) on which the underlying securities are traded, there is a risk that the value of the ADR/GDR will not closely reflect the value of the relevant underlying securities. Additionally, there may be some circumstances where the Investment Manager cannot, or it is not appropriate to, invest in an ADR or GDR, or the characteristics of the ADR or GDR do not exactly reflect the underlying security

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	None
--------------	------

Exit charge	None
-------------	------

This is the maximum that might be taken out of your money before the proceeds of your investment are paid out. Investors may obtain the actual amount of entry and exit charges from their advisor or distributor. In certain cases you may pay less.

Charges taken from the UCITS over a year

Ongoing charges	1.28%
-----------------	-------

Charges taken from the UCITS under certain specific conditions

Performance fee	None
-----------------	------

Ongoing charges are based on the expenses for the last financial year ended on December the 31st, 2020. Ongoing charges may vary from year to year. The figure excludes performance fees and intermediary fees except entry and exit charges paid by the Sub-Fund when buying or selling units/ or shares of other UCIs and investment funds.

For more information on charges, please refer to the prospectus of the Sub-Fund.

Past performance

Past performance is not a reliable indicator of future results. Performance may vary from year to year. The indicated performance does not take into account costs and fees on issues and redemptions of units.

The Share Class was launched on September the 16th, 2019.

The past performance is calculated in EUR.

Charges are included in the performances shown.

The Sub-Fund is not an index-tracker.
