WHAT IS THIS PRODUCT?

Type : This product is a share of an investment company qualifying as an undertaking for collective investment in transferable securities (UCITS).
Term : This sub-fund has no maturity date. However, the board of directors may decide to close the sub-fund under certain circumstances.
Objectives : The aim of the Sub-Fund is to provide long-term capital appreciation through selected investments in listed equity securities of companies that develop climate and environment-friendly solutions, such as renewable energy and resource efficiency, and that appear to offer superior growth prospects and investment. The Investment Manager does not expect to invest more than 20% of the Sub-Fund's assets in companies with a market cap under 2 billion euros.
The Sub-Fund aims to invest in companies whose significant proportion of their activities (as measured by turnover, enterprise value, earnings before income and tax, or similar metrics) are related, but not limited to: renewable energy, technologies that reduce CO2 emissions or energy consumption in areas such as industry, buildings or transportation, and enabling technologies and infrastructure that are critical preconditions for the transition to a low carbon economy, such as energy storage, power semiconductors, power grid, etc.
The Sub-Fund will mainly invest in equities and occasionally in ADRs (American Depositary Receipts) and GDRs (Global Depositary Receipts) which may not embed derivatives.
The Sub-Fund may invest up to 10% of its net assets in emerging markets, including in China H-shares traded on the Hong-Kong stock exchange.
The Sub-fund may hold ancillary liquid assets (i.e. bank deposits at sight, such as cash held in current accounts with a bank accessible at any time) up to 20% of its net assets for treasury purposes.
The Sub-Fund will not invest more than 10% of its net assets in undertakings for collective investment.
The Sub-Fund may invest in financial derivative instruments for hedging and/or for other purposes, including options, forwards, futures and/or swaps on Transferable Securities and/or other eligible assets as described in the prospectus. The Sub-Fund will not use (Efficient Portfolio Management) EPM Techniques or (Total Return Swaps) TRS.
The Sub-Fund qualifies as an Article 8 product under SFDR. The Sub-Fund is managed to promote, among other characteristics, a combination of environmental and social characteristics (as provided under article 8 of SFDR) and will additionally have invest a minimum proportion of 20% of its net assets in a combination of sustainable investments as defined by SFDR and investments in economic activities that qualify as environmentally sustainable as defined by the Taxonomy Regulation (the commitment to the latter is a 0% minimum proportion within the previously mentioned 20% sustainable investments. The Investment Manager integrates sustainability risks and opportunities into its research, analysis and investment decision-making processes. For further information on the Investment Manager's ESG policy, please consult <https://www.march-am.com/en/about-us/sustainable-and-responsible-investment/>. The Sub-Fund is actively managed and the investment objectives and strategy does not refer to a benchmark.
The Sub-Fund launched on on 30/11/2022. The Share Class launched on on 30/11/2022.
The currency of the Sub-Fund is EUR, the currency of this product is EUR.
Distribution Policy: Returns and gains are not distributed but are reinvested in the Fund.
Intended retail investor : This Sub-Fund aims to provide capital growth. It may be suitable for investors with a long term investment horizon, who wish to invest in a diversified equity portfolio and to achieve a reasonable investment return, while being aware of the associated price fluctuations, investors who are seeking long term growth potential offered through investment in equities and are more concerned with maximising long term returns than minimising possible short term losses, hence it requires an investment horizon of at least 5 years.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk indicator

← Lower risk Higher risk →

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Investors shall note that besides the risks included in the risk indicator, other risks such as liquidity risk, equity risk, sustainability risk, risks associated with investing in emerging markets and less developed countries, risk associated with depository receipts, risk linked to use of derivative instruments and hedging risk may affect the fund performance. Please refer to the Prospectus for further details.

This product does not include any protection from future market performance so you could lose some or all of your investment. If not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product/proxy over the last 10 years. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

Recommended holding period (RHP): 5 years Example Investment: 10,000 EUR			
Scenarios		If you exit after 1 year	If you exit after 5 years (RHP)
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.

Favourable scenario: This type of scenario occurred for an investment/benchmark or proxy between October 2016 and October 2021

The figures shown include all the costs of the product itself but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

WHAT HAPPENS IF FUNDROCK MANAGEMENT COMPANY S.A. IS UNABLE TO PAY OUT ?

The Management Company is responsible for administration and management of the Sub-Fund, and does not typically hold assets of the Sub-Fund (assets that can be held by a depository are, in line with applicable regulations, held with a depository in its custody network). The Management Company, as the PRIIPs manufacturer has no obligation to pay out since the product design does not contemplate any such payment being made. However, investors may suffer loss if the Sub-Fund or the depository is unable to pay out. There is no compensation or guarantee scheme in place which may offset, all or any, of this loss.

WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Cost over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return).
- For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- 10,000 EUR is invested.

Example Investment: 10,000 EUR	If you exit after 1 year	If you exit after 5 years (RHP)
Total costs	206 EUR	1,483 EUR
Annual cost impact(*)	2.06%	2.20%

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 8.84% before costs and 6.64% after costs.

OTHER RELEVANT INFORMATION

Conversion right: You may apply for shares in this Sub-Fund to be converted into shares of different class or other Sub-Funds of March International SICAV. For more information on how to convert your shares to shares of other Sub-Funds, please refer to the "Conversions" section in the Prospectus.

Segregation: Investors should note that there is no segregation of liabilities between the individual Classes within a Sub-Fund. Hence, there is a risk that under certain circumstances, hedging transactions in relation to a Hedged Class could result in liabilities affecting the Net Asset Value of the other Classes of the same Sub-Fund. In such case assets attributable to other Classes of such Sub-Fund may be used to cover the liabilities incurred by the Hedged Class. An up-to-date list of the Classes with a contagion risk is available upon request at the registered office of the Company/the Management Company.

Additional information: Copies of the Prospectus, the latest annual and semi-annual report in English as well as other information (including the latest share prices) are available free of charge upon request at the registered office of the Company or on <https://www.march-am.com>.

Past performance and previous performance scenarios: The cost, performance and risk calculations included in this key information document follow the methodology prescribed by EU rules. Note that the performance scenarios calculated above are derived exclusively from the past performance of the Company's share price and that past performance is not a guide to future returns. Therefore, your investment may be at risk and you may not get back the returns illustrated. Investors should not base their investment decisions solely upon the scenarios shown. Information about past performance (when available) and performance scenario calculations can be found on <https://www.march-am.com>

Any past performance data presented will be for up to 10 calendar years from the date of the launch of a share class. No performance data will be presented for a share class that does not yet have performance data for one complete calendar year as there would be insufficient data to provide a useful indication of past performance to retail investors.
