Investment process

March A.M.'s investment philosophy **combines long-term value creation with wealth protection.**

Active management of the investments made: we continuously analyse, monitor and review the portfolio and the investment universe.

Management based on a macroeconomic analysis, which determines the positioning both on the curve and at the geographic and asset levels, by taking advantage of the tactical movements that arise in the market.

March A.M. integrates into the process an ESG evaluation (environmental, social and corporate governance criteria) of the different assets in which it invests, is in the process of investing or is analysing for a future investment in order to take a broader view of the existing risks and opportunities from the point of view of **environmental, social and corporate governance criteria.**

ADVERTISING COMMUNICATION.

The investments described above may involve, among others, interest rate risk, credit risk, liquidity risk, as well as that resulting from the use of derivative financial instruments. Sustainability risk. The value of the assets in an investment fund, whatever its investment policy, is therefore subject to market fluctuations, and both positive returns and losses may be obtained. If market developments are not as expected, the fund may make a loss. Therefore, withdrawing money prior to the completion of the recommended time horizon (x years) may increase the risk of capital loss.

The prospectuses and Key Investor Information documents for these investment funds are available at <https://www.march-am.com/en> as well as at the CNMV official registers. The investments described may involve a number of risks described in the prospectus and KID of the fund. For more information on our sustainable and responsible investment criteria, please visit <https://www.march-am.com/en/about-us/sustainable-and-responsible-investment/>. The investment decision should not only be based on the sustainability aspects, but also on the Fund's characteristics and objectives as described in the prospectus and other information provided to investors under the applicable regulations.

This document is a communication for commercial purposes and is not intended to be, is not and cannot at any time be considered as a recommendation to invest in or contract any financial products. It has been prepared solely to facilitate the independent and individual decision of the investor concerned, who should be aware that the product may not be suitable for their specific investment objectives, financial or asset position or risk profile. They should therefore make their own decisions in the light of these circumstances and seek such specialist fiscal, legal, financial, regulatory, accounting or other advice as they may require. Nor should the investment decision be based solely on the sustainability aspects, but also on the characteristics and objectives of the Fund as described in the prospectus and other information provided to investors under the applicable regulations. These funds may not be suitable for investors who expect to withdraw their money in less than one year.
